DETAILED ACTION

Allowable Subject Matter

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-10 have been found to be novel and inventive because prior art fails to show or teach a method for selectively controlling the power consumptions of a piezoelectrically powered telemetry unit wherein the telemetry unit forms a part of a tire monitoring system and wherein power consumption protocol regulates the consumption including a sleep mode, the length of which is varied in dependence on the amount of charge stored in the storage device or upon the rate at which electric charge is generated by the power generator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. McLaughlin (US
